

COMPASS VISITS

General infos

- split into groups of ~ 10
- 3 visit points: beamline, target area, gallery
- For safety reasons:

**NO MORE THAN 2 GROUPS (= < 24 PEOPLE)
ON THE GALLERY**

- running experiment: no beam, but a lot of work on the detectors

COMPASS

3 visit points:

- BEAMLINER: beam tunnel of SPS muon line
 - separate access door
 - poster with CERN accelerators
- TARGET AREA: COMPASS fixed Target
 - target solenoid
 - **area is changing, ongoing work !**
 - poster with explanations of physics programme
- GALLERY: Detector Overview
 - view of whole detector (module by module)
 - posters about different detectors (more to come)
 - detector parts to touch

Plan of visit area
